Wednesday, March 31

7:30 – 8:00 A.M.

Registration & Continental Breakfast

8:00 A.M. – 12:00 P.M.

Microstation V8i Overview

The course provides an overview and hands-on experience with Microstation V8i.

Presenter: Bob Mecham, The Envision Group

8:00 A.M. – 12:00 P.M.

Intro to Corridor Modeler and Roadway Designer

This is an entry level workshop meant to introduce users to the workflow and concepts of Corridor Modeling and Roadway Designer. We'll take our existing GEOPAK project, import it into Corridor Modeler, create a template and apply it in Roadway Designer. Then we'll create a final surface, review it and cut cross sections.

Presenter: Derricke Gray, Bentley Systems, Inc.

8:00 A.M. – 12:00 P.M.

From Corridor Modeler to Visualization

This is an advanced course covering visualization tools and techniques.

Presenter: Tom Stogdill, Bentley Systems

1:00 P.M. – 5:00 P.M.

Practical Use of Civil Geometry Tools

This workshop is a hands-on opportunity to use the New Civil Geometry and Civil Accudraw tools in a real world example. Participants need to have a working knowledge of coordinate geometry principles used in highway design and be fluent in the use of Microstation.

Presenter: Robert Garrett, Bentley Systems

1:00 P.M. – 5:00 P.M.

Overlay Tools in Roadway Designer

Are you ready for resurfacing and rehabilitation? This hands-on session delves into the new tools for automating your overlay processes.

Presenter: Corey Johnson, Bentley Systems, Inc.

1:00 P.M. – 5:00 P.M.

Microstation Administration

Advanced course designed for participants who have the responsibility of administering Microstation.

Presenter: Tom Stogdill, Bentley Systems
